

DOSU

Pre-engineered chemical dosing package designed to provide chemical feed solutions for a variety of water supply/treatment systems, as well as industrial and manufacturing applications.

Features :

- Available in single and dual pump designs which are customisable by selecting from the LMI Australian Market Range (AMR).
- Rugged, chemical resistant pump panel with forklift pockets
- LMI metering pumps from the AMR to accommodate a wide range of chemicals and metering capacities
- Pulsation dampener, calibration column, pressure gauge, isolation, relief and pressure sustaining valves as standard

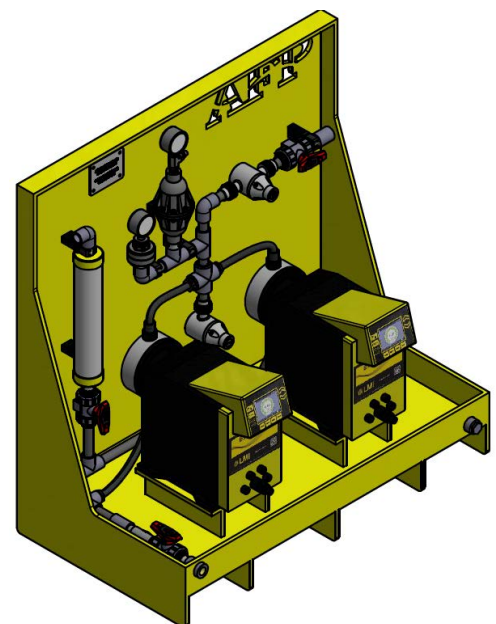

DOSU-S
Single pump design

Order Code

DOSU - S - 7C2

Base Model		On Skid Pump Code
Code	Description	
DOSU-S	Single pump	Refer to Dosing Equipment Catalogue
DOSU-D	Double pump (duty standby)	

DOSU-D
Double pump design

Dimensions

Approximate dimensions L x W x H (mm)

DOSU-S	550 x 510 x 1030
DOSU-D	920 x 510 x 1030
